7. [redacted] Miss Rosenbloom, in the office of Representative Ken Heckler, called regarding [redacted] who had applied for a position with the Agency a while back and had been told we had nothing for her at that time. Miss Rosenbloom said she wondered if the situation had changed any since that time. After checking with Personnel, I advised Miss Rosenbloom that the situation had not changed and we did not have an opening for [redacted] at this time. However, I offered to set up another interview for her if she wished. Miss Rosenbloom said if this appeared desirable she would let us know.

8. [redacted] Talked again with Homer Kroat, in the office of Representative Joel Broyhill, regarding the case [redacted] (see Journal of 12 September). I advised Kroat that as I had indicated to him previously, the Agency had made a thorough review of [redacted] case and found that no authorized overtime had been performed by [redacted] for which he had not been compensated. Kroat asked if I thought the information which [redacted] had provided them was sufficient to warrant a further review. I told him that this had been made available to our people and they felt it did not provide sufficient basis for further review. I added we had written to [redacted] last Thursday advising him of these results. Kroat said this was sufficient for him and no further action would be necessary insofar as they were concerned.
